

Teaching Physical Science/ Physics for the First Time(s) Part 3: Waves and Sound.

FREE! FREE! FREE!

Ride the wild waves, conduct a symphony of activities and get on the right wavelength. We'll review the basics of waves and sound in a way that is sure to resonate with your students. This workshop is based on Teaching Physics for the First Time manual from AAPT but is **intended for teachers in their first 5 years of teaching physical science/ physics.**

Free stuff Includes:

- One-year membership to the Ohio Section AAPT*
- Make & Take materials
- DVD of Wave and Sound lessons and resources
- Materials from the Perimeter Institute

* free one year membership to teachers with 5 or fewer years teaching

Join us at the **Saturday October 8** meeting of the Ohio Section of the American Association of Physics Teachers at **Kent State, Kent, OH, 44242**. Park at Lot 5 near Smith Hall on East Summit Street (back side of Campus)

Agenda

- 8:30 - 9:00 am Continental breakfast and registration. (Pre-order Lunch)
