

WOMEN in STEM HIGH SCHOOL AEROSPACE SCHOLARS (WISH)

ENGINEER YOUR
DREAM JOB.

START
HERE.

EXPLORE YOUR DREAM JOB.

NASA wants you to become the engineers, scientists, researchers and innovators of tomorrow. The WISH project offers a one-of-a-kind experience for female high school students like you to jump start your future and explore the possibilities of a Science, Technology, Engineering and Mathematics (STEM) related major or career.

FIND YOUR DREAM JOB.

WISH is looking for female high school juniors from across the country to join in this great adventure! WISH starts with an online community and culminates with a summer experience at a NASA Center in Summer of 2012.

Applicants need to:

- Be a U.S. citizen
- Be a female high school junior
- Be interested and excited about STEM
- Be committed to a one-year relationship with JSC; and
- Have access to the Internet and email (at home, school or public library)

CREATE YOUR DREAM JOB.

- Participate in an online community including chat sessions with subject matter experts
- Complete online lessons covering past, present and future space exploration
- Research leading female STEM professionals
- Attend the summer experience with selection based on application, participation in online activities and research and geographic diversity, at no cost to you

THE SUMMER EXPERIENCE.

- Collaborate with girls from across the country on a unique design project during the summer experience
- Work with female NASA engineers and co-ops/interns on the project
- Present your mission to NASA personnel and community leaders

START YOUR DREAM JOB HERE.
